

EXECUTIVE SUMMARY

Master Logbook · 57 Shipments · 2021 – 2026

Headline. Across 57 ocean-freight shipments dispatched between December 2021 and February 2026, DHL Global Forwarding moved EUR 8,869,000 of capital industrial equipment from Singapore to Pacific transit ports for two principal buyers (Marine Power Solutions and Pacific Heavy Machinery). 31 shipments have been fully delivered to their final destinations; 26 remain in bonded storage at the transit ports awaiting onward shipping instructions from the consignees.

KEY METRICS

Total shipments	57
Delivered	31 (54%)
In depot (pending instructions)	26 (46%)
Total goods value	EUR 8,869,000
Goods value delivered	EUR 4,733,000
Goods value in depot	EUR 4,136,000
Total freight billed	USD 269,180
Transit port — Port Moresby (PNG)	27 shipments
Transit port — Port of Suva (Fiji)	30 shipments

DEPOT RISK ANALYSIS

All 26 depot shipments cleared customs at their transit port but remain in bonded storage awaiting written shipping instructions from the consignee for onward movement to the final destination. The oldest shipment (DHL-SWB-029) cleared on 2024-03-18 and has been in storage for 790 days; the most recent cleared 48 days ago. Average dwell across all 26 depot shipments is 322 days.

Critical (>365 days in storage): 10 shipments — formal demand letters recommended. High priority (180–365 days): 8 shipments — escalation calls due.

CRITICAL DEPOT SHIPMENTS (>365 days)

SWB	Product	Cleared	Days	Goods (EUR)	Final Destination
DHL-SWB-029	Cyl Liner	2024-03-18	790	170,000	PNG Depot Area
DHL-SWB-030	Cyl Liner	2024-05-20	727	170,000	PNG Depot Area
DHL-SWB-033	Cyl Liner	2024-06-22	694	170,000	PNG Depot Area

DHL-SWB-040	Bomag BW 174	2025-05-04	378	160,000	Fiji Depot Area
DHL-SWB-041	Excavator Bucket	2025-05-13	369	13,000	Fiji Depot Area

RECOMMENDED ACTIONS

1. Issue formal demand letters to the consignees of all CRITICAL (>365-day) depot shipments within 14 days, requesting written shipping instructions and re-confirmation of final destination.
2. Escalate HIGH-priority cases (180–365 days) to the buyers' procurement directors with copy to the seller's commercial team — propose a joint conference call to unblock.
3. Re-tender freight quotes for onward shipping from PNG/Fiji depots to Australia, New Zealand, Korea (Direct), and Korea (Transit), with multimodal alternatives.
4. Conduct full container/seal integrity verification on all CRITICAL shipments and reissue Warehouse Receipts.
5. Refresh insurance cover certificates on any shipment exceeding 12 months of storage — confirm continuous all-risk coverage is in force.
6. Prepare consolidated re-export documentation (commercial invoice, packing list, customs declaration) for each depot shipment in anticipation of instructions.
